Important Safety Instructions:
Read these instructions - this manual contains important safety and operating instructions for this charger. Before using your charger read all instructions and cautionary markings on the charger, the batteries to be charged and the product that use the batteries.

Warning:

• Use to charge Ni-MH batteries only. Do not charge Alkaline, Zinc Carbon, Lithium or any other type of battery not specified on the charger. Other types of batteries might burst or leak causing personal injury.
• Do not dispose of in fire, short circuit or open.
• Charge new batteries before using.
• Never alter the AC cord or plug.
• Do not operate the charger if it has been subjected to shock or if it is damaged.
• To avoid risk of electric shock, unplug the charger from the electrical outlet before cleaning or when not in use.
• This battery charger is for indoor use only. Do not expose the charger to rain or excessive moisture. Keep the charger away from dust and dirt, which can cause premature wear of parts or harm its normal operation.
• Do not expose the charger to the sun or any other heat source.
• Do not dismantle the charger.
• To avoid risk of electric shock, unplug the charger from the electrical outlet before cleaning or when not in use.
• This battery charger is for indoor use only. Do not expose the charger to rain or excessive moisture. Keep the charger away from dust and dirt, which can cause premature wear of parts or harm its normal operation.
• Do not expose the charger to the sun or any other heat source.
• Do not dismantle the charger.
• To avoid risk of electric shock, unplug the charger from the electrical outlet before cleaning or when not in use.

• Always use the correct polarity when connecting the batteries.

• Charge only new batteries.

• Do not expose the charger to the sun or any other heat source.

• Do not dismantle the charger.

• To avoid risk of electric shock, unplug the charger from the electrical outlet before cleaning or when not in use.

• This battery charger is for indoor use only. Do not expose the charger to rain or excessive moisture. Keep the charger away from dust and dirt, which can cause premature wear of parts or harm its normal operation.

• Do not expose the charger to the sun or any other heat source.

• Do not dismantle the charger.

• To avoid risk of electric shock, unplug the charger from the electrical outlet before cleaning or when not in use.

• This battery charger is for indoor use only. Do not expose the charger to rain or excessive moisture. Keep the charger away from dust and dirt, which can cause premature wear of parts or harm its normal operation.

• Do not expose the charger to the sun or any other heat source.

• Do not dismantle the charger.

• To avoid risk of electric shock, unplug the charger from the electrical outlet before cleaning or when not in use.

PHILIPS

Operating Instructions

General charging guidelines

- At the same time you can charge 1 or up to 4 AA/AAA batteries.
- For long battery life, only charge empty batteries.
- When charging, ambient temperature should be between 0°C and 40°C (32°F and 104°F).
- You can charge batteries with different capacity (mAh) and size (AA/AAA) at the same time.

Note: It is normal for the unit and the batteries to become warm while charging.

Charging batteries

- 1 Slide off the battery cover and insert batteries into the battery charger. Voir fig. A.
- 2 For SCB7560CB, first select the appropriate plug (supplied) for your country and attach the plug to the adapter pins.
- 3 Connect the DC output plug of the adapter into the DC input jack of the charger and plug the adapter into a household electric outlet. See fig. B.

Battery charging times:

Battery size	Battery capacity (mAh)	Approx. charging time
AA Ni-MH	2600 mAh	22 min 44 min
AA Ni-MH	2300 mAh	19 min 35 min
AA Ni-MH	2100 mAh	17 min 33 min
AA Ni-MH	1800 mAh	15 min 30 min
AA Ni-MH	1300 mAh	10 min 20 min
AAA Ni-MH	800 mAh	17 min 32 min
